Candidate Overview

Candidate	Rohit Patil
Role Applied	AI Backend Engineer
Email	rohitpatil89045@gmail.com
Experience	2-3 years
Education	Bachelor of Technology (AI & ML) 2022 – 2026

Evaluation Scores

Metric	Score	Rating
Fit Score	30.83 / 100	■ Poor
Interview Score	1.0 / 10	■ Poor
Overall Score	22.5 / 100	■ Poor

Skills Analysis

■ Matched Skills	nlp, llm, computer vision
■ Missing Skills	gen ai, video processing, text extraction, dubbing, transcription, translation, text-to-video
■■ Weak Areas	backend development, deployment & cloud

Recommendations

- learn gen ai, video processing, text extraction, dubbing, transcription, translation, and text-to-video generation
- improve backend development and deployment skills

Interview Performance

Q1: How does FastAPI handle request validation?

Score: 0/10 — No answer provided. This is a key area to study before the interview.

Q2: How do Docker containers help in deployment?

Score: 0/10 — The candidate provided a one-worded response. Docker containers help in deployment by providing isolation, portability through images and the ability to create and manage containers as a single unit.

Q3: What is a Kubernetes pod?

Score: 0/10 — The interviewer was looking for a definition of a Kubernetes pod that includes its smallest unit, containers, networking, and lifecycle. Please provide more details in your answer.

Q4: How do database indexes improve query performance?

Score: 4/10 — The candidate was expected to provide a detailed explanation of how database indexes improve query performance. They should have mentioned B-tree indexes and their benefits for faster lookup. The trade-offs associated with indexing were also an expected point.

Q5: Tell me about a time you solved a difficult technical problem in a team.

Score: 2/10 — The candidate needs to provide a specific example and clearly describe their role in the team and how they contributed to solving the problem. They should also outline the outcome and what they learned from the experience.

Q6: How do you keep up with new technologies?

Score: 0/10 — The candidate didn't provide any specific information on how they keep up with new technologies.

Final Decision

NO HIRE

Based on fit score and interview performance.
